

CONTEMPO SHUFFLEBOARD

Our Contempo shuffleboard table is a stylish, durable entry-level option that boasts a sleek design with classic charm. Unlike most shuffleboard tables in this price range, which are factory produced using particleboard, each one of our Contempo series tables is built by hand using 100% solid North American hard maple.

The hard maple used in the construction of both the playing surface and cabinet contributes to the exceptional beauty and durability of our Contempo shuffleboard table. Our Contempo series delivers the same quality and craftsmanship of our more expensive models while staying at a lower price point. We are able to offer the Contempo at such an affordable price because of its unique 20" wide and 2" thick playing surface, which allows us to reduce the shipping costs and provide a playing experience similar to a regulation sized board.

The Contempo shuffleboard comes with your choice of solid color finishes or a stylish two-tone finish of a bright natural maple cabinet that contrasts with black carpet and legs for a contemporary, modern look. Because we build each Contempo shuffleboard table to order, we can also custom finish your table to better match the look and feel of your home or game room.

Every Contempo series table features a 20" wide and 2" thick playing surface that is handcrafted using the finest locally harvested hard maple and sealed with a specially formulated finish that has a lifetime warranty. Each table also comes with 1 can of wax and 8 shuffleboard pucks.

Sizes Available 9', 12', 14' & 16'
