

TOURNAMENT II SHUFFLEBOARD

Each Tournament II shuffleboard table is handmade using locally harvested hard maple. Before it is used in the construction process, each piece of maple is examined for color consistency and surface quality to maximize the overall beauty and durability of the finished shuffleboard table. Construction of the Tournament II's cabinet begins with the rounded collars, which are made by hand and steamed in plywood. The top molding is solid maple attached to the rounded collars.

Our master craftsman build each Tournament II shuffleboard table to order. It is this dedication to quality and attention to detail that separates the Tournament II from similarly priced shuffleboard tables. Each Tournament II shuffleboard is available in your choice of Mocha, Heirloom, Traditional Chestnut, Deer Creek, or Traditional Mahogany finish. We can also custom finish your new Tournament II to complement your specific decor of your home, business, or game room.

Each Tournament II table features a 20" wide and 3" thick playing surface that is made by hand using solid North American maple and sealed with a specially formulated finish that has a lifetime warranty. Your new shuffleboard table comes complete with 8 shuffleboard pucks and 1 can of wax.

Sizes Available 12', 14', 16', 18', 20' & 22'
