

DAKOTA SHUFFLEBOARD

Each Dakota shuffleboard table is truly a unique, rustic, and rugged creation that is perfectly suited for any man cave, cabin, or lodge. The Dakota is a completely custom table that is handcrafted using reclaimed and salvaged lumber from old buildings and barns. Most of the lumber used in the Dakota's cabinet construction is circle-sawn hardwood, while the legs are made from hand-hewn beams. Every Dakota shuffleboard table is made from start to finish by the same master craftsman.

While each Dakota shuffleboard table is made using the same design, no two Dakota tables that have ever left our Grand Rapids, MI facility are exactly the same. Unlike new materials, this reclaimed lumber is weathered and isn't completely uniform. As a result, each Dakota shuffleboard table is a one of a kind piece of furniture that perfectly emulates a country look and feel.

Every Dakota shuffleboard table also features a 20" wide and 3" thick playing surface made from the finest locally harvested hard maple. Each playing surface is warranted. Every table order comes with 8 pucks

and 1 can of shuffleboard wax.

Sizes Available 9', 12', 14', 16', 18', 20' & 22'
