

LUDINGTON SHUFFLEBOARD

Our Ludington comes in choice of Tulipwood or Alder for the cabinet. Standard is a 2" 20" wide board but you can upgrade to the 3" playboard for a small fee. Also available in custom widths if you need a more narrow cabinet because we custom build everything you can get an 18" wide board and 25" wide cabinet.

The Ludington series delivers the same quality and craftsmanship of our more expensive models while staying at a lower price point. We are able to offer the Ludington at such an affordable price because of its unique 20" wide and 2" thick playing surface and the cabinet wood made with factory style hardwoods like Alder and Tulipwood.

The Harvard shuffleboard comes with your choice of traditional finishes or a hand-rubbed black stain for a contemporary, modern look. Because we build each Harvard shuffleboard table to order, we can also custom finish your table to better match the look and feel of your home or game room.

Every Ludington series table features a 20" wide and 2" thick playing surface that is crafted using locally harvested hard maple and sealed with a specially formulated finish that has a lifetime warranty. Each table also comes with 1 can of wax and 8 shuffleboard pucks.

Sizes Available 9', 12', 14' & 16'
